Imperatores severi et senatores Okoń Danuta pobierz PDF In the history of Rome the Severan dynasty was the last ruling house preceding the empire's decline and fall in the 3rd century. This imperial crisis could only be overcome owing to the reign of emperors-military men whose actions led to the recreation of Rome's political system into a more authoritarian form such as the *dominate*. The genesis of these changes can be traced back to the reign of Emperor L. Septimius Severus and his successors, a context which is crucial for understanding the political and social history of not only the 3rd but also subsequent centuries.
